# **CLX COMMUNICATIONS AB has delivered the first commercial IoT connectivity application**

**Stockholm, Sweden - CLX Communications AB (publ.)** – a leading provider of cloud based communications solutions announced that the company has made the first deliveries to customers in the rapidly expanding scope of the Internet of Things - IoT.

After extensive investments in IoT connectivity service, CLX has started the delivery of commercial solutions to current beta customers. Initially, the deliveries are limited to just a few customers. "We expect to continue to develop the service in close cooperation with our customers and to gradually increase sales of the service." Says CLX CEO Johan Hedberg in a comment.
